

## Twitter

**REPTILES is all a-Twitter with excitement.**

September 11, 2009

It's official. REPTILES magazine is now on Twitter.com.

What does that mean for you?

It means that you can find out about the latest ReptileChannel.com features and follow our links for easy access. It means that you can stay in touch with us via your own Twitter.com page. And it means you have an inside line to all the latest REPTILES magazine contests and games.

Twitter is a great way to connect with other reptile enthusiasts. Not only can you post the latest information on your new morph pet, but you can also read about other people's animals and ask questions.

Although newer on the social networking scene than Facebook.com and Myspace.com, Twitter has quickly become one of the more popular ways to stay in touch with like-minded individuals. What better way for the Reptile Nation to spread the word?

Log on and check us out at [Twitter.com/REPTILESMag](http://Twitter.com/REPTILESMag). We look forward to sending you informative and fun tweets!
